List of Books Published by CFUW-Ottawa Authors

Writers' Workshop : The group has five objectives:

- (i) to study and critique literary works of its members;
- (ii) to learn and practice literary critiquing in a relaxed atmosphere (the authors being critiqued do not speak);
- (iii) to discipline ourselves as writers by trying to submit a short story of not more than 500 words at each meeting---only to be read for the enjoyment of the other members attending our literary soirées;
- (iv) to learn about the publishing industry and the members' experiences with it, including agents, book fairs, literary events, commercial and not-for-profit publishing and marketing of books, electronic and self-publishing, prizes, and national and international authors' associations;
- (v) to support the members' publishing efforts, and enjoy the fellowship of other writers in the relaxed atmosphere of one of our homes over tea and other culinary and possibly literature-related refreshments (e.g., croissants, bagels, potato peel pies).

To date, the works of the following members, in alphabetical order, were accepted for publishing and distributed nationally and internationally with some success:
